Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original written description makes no reference to a fuselage with two wings .

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-3,6-8,13-17,20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Saiz (6082668).

It is noted that “faired, profiled, and streamlined” all have the equivalent scope with claim language and applicant has not clearly set forth any different scope. It is also

noted that the aerodynamic profile of Saiz will generate and not generate lift depending on its angle of attack.

2. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Saiz (6082668) in view of Loedding (2503585). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the leading edge of Saiz (6082668) with a lip as taught by 70 in figure 5 of Loedding (2503585) since it will improve the flow characteristics.

3. Claims 9, 11, 12, 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saiz (6082668). It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the skin of Saiz (6082668) out of flexible fabric as this is a well known old skin material that is light and easy to work with and also to provide a trailing edge flap and two wings on a fuselage are well known lift enhancer.

4. Claims 18-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saiz (6082668) in view of Saiz (6378803). It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the profile of Saiz (6082668) as taught by figures 9 and 12 of Saiz (6378803) since it is a mere change of shape.

Applicants remarks have been considered but are deemed to be more specific than what is claimed. The claim language must clearly define over the art.
